1 Features: -

Input Channels	Maximum up to 2 No's combinations of PIEZO and LVDT sensors.
Resolution	Linear-: 0.1µm/ 0.2µm/0.5µm/1µm/2µm/ 5µm
Units	Linear-: MM, INCH, microns
Dimension Type	Linear.
Measurement Modes	CUR, MIN, MAX, Diff, AVG.
Output Results	Maximum up to 2 per Part Setup
Part Setups	Maximum up to 10
Result Formula Editor	Result formula can be edit for combinations of PIEZO and LVDT channels and / or other results.
Digital Outputs Indications	OK, Reject, Rework
Calibration	Single master / Double master configurable
User Interface	4.3" INCH Color Touch LCD display (Dot Matrix: 800 x 480- RGB)
	Keypad (Highly efficient 3D tactile keys)
PC Interface	RS-232, Ethernet
USB host interface	USB 2.0 Compliant, For Mass Storage Device.
Digital Outputs	3 outputs, Isolated, Open collector
Footswitch interface	Available
Display Views	Digital Readout/ Dial / Bar graph / Run Chart
Memory	In built micro-SD card of 8GB for data storage
